

### Sweet cherry fest at Istrita 2016

Sweet cherry fest at Istrita Nursery and Didactic Farm started in 2014 when several growers from different regions in Romania bring many fruits cultivars for a sweet cherry exhibition at Istrita. Since then, we take the opportunity to test the quality of their fruits in the framework of a degustation session among the participants who visit and enjoy the professional tour from the “Agriculture for Life, Life for Agriculture” International Conference of UASVM Bucharest.

This year we are waiting for more than 40 samples of sweet cherry varieties to be tested at the 4<sup>th</sup> edition of Sweet Cherry Fest in Istrita. Participation in the degustation of the samples are people from different countries, nationalities, occupations, ages, sex and culture. The results are evaluated according to this categories and the final ranking list with best average scores.
